

Project Design Phase-II

Solution Requirements (Functional &Non-functional)

Date	
Team ID	LTVIP2025TMID53551
Project Name	Househunt: Finding Your Perfect Rental Home
Marks	

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through Form Registration through Gmail Registration through LinkedIn
FR-2	User Confirmation	Confirmation via Email Confirmation via OTP
FR-3		
FR-4		

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The platform should have a user-friendly interface with intuitive navigation for both freelancers and recruiters.
NFR-2	Security	User data and login credentials must be securely stored and transmitted using encryption and authentication protocols.
NFR-3	Reliability	The system should consistently function without failures, ensuring data is not lost or corrupted during usage.
NFR-4	Performance	The application should respond quickly to user actions and support smooth loading of job listings and forms.
NFR-5	Availability	The system should be accessible at least 99% of the time, ensuring minimal downtime for users.
NFR-6	Scalability	The platform must support increasing numbers of users and data without performance degradation
